Emergency Carts

The Artromick Series Emergency Cart
defines a new standard of organization and function with a list of features unavailable until now. The unique breakaway locking handle offers the security you require and the simple access essential to every emergency response. Stable maneuverability is built-in to every cart and a full line of accessories enhance user efficiency to support code team performance.

Quick-Access lock offers the security you require and ensures quick access to code cart supplies.

Procedure Carts

The Artromick Series Procedure Cart
offers a wide selection of organization accessories, huge capacity, and a choice of models in 4-drawer, 5-drawer, or custom configurations. The adaptable set-up of the Artromick Series Procedure Cart makes it perfect for a host of healthcare applications including trauma, airway, dressing, cast, or general supply cart. To ensure security, we give you a choice of (3) different lock systems including an advanced keyless entry with auto-relock.

Seamless Drawer Trays ensure durability and eliminate hassles associated with pop rivets or sharp metal edges found in metal-based drawers.

AC Anesthesia Cart Models

Drawers can be configured to best meet your unique requirements.
**Isolation Carts**

The Artromick Series Isolation Cart provides a host of innovative features that promote long-term, reliable function and value. Large-volume seamless drawer trays are supported by a unique guide system that ensures consistent performance year after year. This superior design offers durable performance and a solid feel uncommon in metal product alternatives.

**Treatment Carts**

The Artromick Series Treatment Cart gives you a choice of (3) lock systems to secure your Treatment Cart. To optimize organization, every Treatment Cart features an integral divider system that can be changed and rearranged to meet the changing needs of storage compartments.

Every Treatment Cart offers a complete choice of accessories including a large-volume waste container and lid, drawer dividers, and innovative organizer options.

**I.V. Therapy Carts**

The Artromick Series I.V. Therapy Cart methodically organizes the various supplies associated with I.V. preparation. Keeping everything in its place is simple with an array of optional drawer divider systems and storage bins.

An expansive and sturdy work surface offers ample room to efficiently prepare I.V. solutions. Added work area can be achieved with the stable slide-out work surface that can be positioned on either side of the cart, and can be quickly changed to the right or left side in seconds without the need for tools.

**Critical Care Carts**

The Artromick Series Critical Care Cart promotes efficient workflow and task management through a customized approach to medical cart design. The flexibility of the Artromick Series Critical Care Carts lets you decide the best set-up for your facility. Choose from three (3) standard models that feature an arrangement of 3", 6" and 10" drawers that can be custom divided to meet your precise storage needs. To ensure security of your supplies, each model features your choice of (3) proven lock systems. A full complement of accessory options permits complete customization to accommodate a variety of monitors, storage units and critical care supplies.

**Med/Surg Carts**

The Artromick Series Medical/Surgical Cart must meet the demanding requirements of the ever-changing hospital environment. It is with that knowledge that Capsa Solutions offers your hospital a choice of Med/Surg carts within our innovative Artromick Series Medical Cart line. Select from a host of drawer divider and tray solutions that offer complete flexibility within each drawer.

Every Med/Surg Cart accommodates the latest technology solutions and monitoring equipment to make sure your workflow is efficient and streamlined.

**Tubular Steel Frame**

Precision welded all-steel unibody frame is virtually indestructible.
AC Anesthesia Self-Locking

The Artromick Series AC Anesthesia Cart

defines a new standard of security that has become a key feature when discussing the safety and accountability of anesthesia medications.

That’s why Capsa has blended its proven and innovative automatic relocking system with the latest medical cart design available. The result is a new benchmark in anesthesia storage and organization—the Artromick Series AC Anesthesia Cart.

The flexibility of Artromick Series AC Anesthesia Cart line permits a customized configuration of drawers and accessories to best meet your requirements. To further optimize security, add a secondary access requirement such as ID Badge card reader or optical bar code scanner and cart user audit. AC Anesthesia Carts offer the latest design and the latest technology to meet the unique requirements of today’s anesthesia professionals.

Keyless Access with Automatic Relocking and optional security upgrades.

Secondary Access Security
Select from a bar code, mag stripe or proximity card reader to serve as the primary or secondary access requirement.

User Audit Tracking
Stores over 2,000 user events and records time/date information on the cart user. Information is easily reviewed on the high-visibility LCD readout or downloaded to a PC.

Keyless Narcotic Storage
Add a second level of lock security to any size drawer...in any location on the medication cart. Up to two keyless narcotic storage drawers per cart are possible.

Optional Remote Management System
Permits access and security control of all Artromick Series AC Anesthesia carts from a remote PC.
